ARMING

Korean functional skincare and hair care from a GMP manufacturer in Gimpo

Enveco Cosmetic manufactures hair care, skincare and functional cosmetics in Gimpo, Korea, and develops products for partner brands (OEM/ODM). ARMING is its own brand: seven MFDS functional skincare products and the Cashmere hair care line.

Supplier profile

About the company

Enveco Cosmetic Co., Ltd. is a Korean cosmetics manufacturer with its own plant and research institute in Gimpo, Gyeonggi-do. The company formulates, produces and packs hair care, scalp care, skincare and body care, as well as functional cosmetics for brightening, wrinkle improvement, UV protection and the relief of hair-loss symptoms. Its research institute has been recognised by the Korea Industrial Technology Association (KOITA) since 2016, and production follows the ISO 22716 cosmetics GMP standard, first certified in 2019.

ARMING is Enveco's own brand, launched in 2020. The name means "being beautiful", and the packaging carries a motif of a traditional Korean window lattice. In January 2026 the brand added a skincare line of seven products. Each of them is a functional cosmetic reported to Korea's Ministry of Food and Drug Safety (MFDS) for two effects: skin brightening (niacinamide 2%) and wrinkle improvement (adenosine 0.04%). The sun cream adds a third: SPF50+ PA++++ UV protection.

Every skincare formula is built on 9.8% centella asiatica leaf water, with peptides, ceramides and retinol, and each product has its own signature component: five forms of hyaluronic acid, a seven-collagen complex, ginseng and centella exosomes, or a multivitamin complex. The ARMING Cashmere hair care line, including a scalp booster with 81% cypress water, completes the range.

For partner brands, Enveco works as an OEM manufacturer (your formula and brand) and an ODM developer (from product planning and formulation to production, quality control and shipping). The company has produced hair care for Korean TV-shopping brands and exports to Southeast Asia, Greater China and other markets.

- **Enveco Cosmetic Co., Ltd. (엔베코코스메틱), own plant and research institute in Gimpo, Gyeonggi-do, Korea**
- **Registered cosmetics manufacturer and responsible seller in Korea; MFDS manufacturer registration no. 1809**

- **7 ARMING skincare products reported to MFDS as functional cosmetics (2025–2026); the ARMING sun cream approved by MFDS in August 2025**
- **ARMING export contracts in Singapore, the Philippines, Taiwan and Malaysia (per the company)**
- **OEM and ODM: hair and scalp care, functional cosmetics, hair colour, skincare and body care**

Product lines

Skin Care

Seven MFDS functional products for brightening and wrinkle improvement: toner, emulsion, ampoule, watery cream, collagen cream, eye cream and an SPF50+ PA++++ sun cream. All share 9.8% centella leaf water, niacinamide 2% and adenosine 0.04%.

Hair Care

The Cashmere line for the scalp and hair: a clinic shampoo on coconut-derived surfactants, a weakly acidic treatment, a scalp booster with 81% cypress water, a damage-care hair pack and a leave-in balm essence.

OEM / ODM

Contract manufacturing under the client's brand: hair and scalp care, functional cosmetics (brightening, anti-wrinkle, UV protection, hair-loss symptom relief), hair colour, skincare and body care.

Formula technology

Dual-function base

Niacinamide 2% for brightening and adenosine 0.04% for wrinkle improvement, in the doses set by the MFDS functional-cosmetic standard, in all seven skincare products.

Cica foundation

Centella asiatica leaf water at 9.8% replaces part of the water phase in every skincare formula, together with peptides, ceramides and retinol.

Signature complexes

Five forms of hyaluronic acid from low to high molecular weight (toner, emulsion, sun cream); seven types of collagen (white cream, eye cream); ginseng and centella exosomes (ampoule); PDRN and NMN (eye cream, sun cream).

In-house R&D

A KOITA-recognised research institute develops formulas for hair, scalp and functional skincare, working with Korean universities and ingredient makers.

Export and documents

This profile was prepared by Teranova from materials Enveco Cosmetic provided directly: the company catalogue, the ARMING skincare brochure, MFDS functional-cosmetic reports and product technical sheets. Prices, minimum order quantities and the company's direct contacts are not published; buyers receive them on request through Teranova.

MFDS functional cosmetics and quality

- MFDS functional cosmetics · 7 skincare products
- SPF50+ PA++++ · MFDS

All seven ARMING skincare products are reported to Korea's Ministry of Food and Drug Safety (MFDS) as functional cosmetics for brightening (niacinamide 2%) and wrinkle improvement (adenosine 0.04%), reports dated September 2025 to April 2026. The sun cream also protects against UV rays, SPF50+ PA++++; the ARMING sun cream was approved by MFDS in August 2025, which Teranova has confirmed in the public MFDS database. Teranova has reviewed the reports and technical sheets; copies are shared with buyers at the deal stage.
