SLOW LOUNGE

Calmness at your fingertips

Korean hand, body and lip care: a hand balm on a chain that is worn on the outside of a bag, and three formulations — Stressfree, Waterdrop and Sun Off

About the company

SLOW LOUNGE is a Korean brand of hand, body and lip care. It is made by TeamPass, a company based in Seoul, and the brand launched in January 2026.

The company builds the brand around how a product feels in use rather than around a list of functions. Its own brand book puts it plainly: slow the rhythm of the day for a moment and find calm again through your hands.

The most recognisable item in the range is a hand balm on a chain with a clasp. People clip it to a bag, a phone or a tumbler, so the cream ends up within reach where it usually is not. The company calls this format a keyring hand cream, and it is what gives the brand visibility in short video and on a shelf.

The second product built the same way is a square lip balm that the company pairs with a phone grip. The brand reads as different on the shelf before a shopper gets to the ingredient list.

The brand launched in January 2026; the operating company is TeamPass, Seoul

Three core formulations: Stressfree on patented B-Circadin™, Waterdrop on Italian thermal water and ceramides, Sun Off with New Zealand Manuka honey and SPF

The keyring format: a clasp and a chain, clipped to a bag, a phone or a tumbler

The company states that the Stressfree line completed clinical testing across seven parameters

The company states an irritation index of 0.00 for the Stressfree and Waterdrop lines

The company declares a vegan formulation and an EWG Green grade for the Waterdrop line

Product lines (1/2)

Stressfree

The brand's core line. It contains a patented bush clover ingredient, B-Circadin™, at 3 per cent, along with NAD+, NMN, adenosine and niacinamide. The company describes care for skin under stress, blue light defence and support for the skin's daily rhythm. The line covers a hand balm, a body balm and a body wash; the body fragrance is described as aromatic woody.

Waterdrop

The hydrating line, built on Italian thermal water, a five-ceramide complex and moisture capsules. The texture is described as a jelly that turns to water on application. The company names microfluidic encapsulation as the way active ingredients are held stable. The line covers a hand balm, a body balm and a body wash; the body fragrance is watery muguet.

Sun Off

The line for everyday sun protection: SPF 15 PA++ for hands and SPF 10 PA++ for lips. It contains New Zealand Manuka honey at UMF 20+ and the same B-Circadin™. The company describes a hundred-hour honey process: fifty hours of fermentation and fifty hours of low-temperature aging.

Product lines (2/2)

Nude

A tinted lip balm in a square jar. It gives a natural tint and, in the company's description, works on evening out tone. This is the format the brand pairs with a phone grip.

Formulation and approach

B-Circadin™, a patented ingredient

A bush clover extract the company uses at 3 per cent in the Stressfree and Sun Off lines. According to the company it works on care for skin under stress, blue light defence and support for the skin's daily rhythm.

Italian thermal water and five ceramides

The base of the Waterdrop line. The company names mineral-rich thermal water, a five-ceramide complex, natural moisturising factors and hyaluronic acid which, by its data, holds up to six thousand times its own weight in water.

Microfluidic capsules

The delivery method the company names in the Waterdrop line. The capsules open on application and the texture moves from jelly to water.

Manuka honey at UMF 20+

The ingredient behind the Sun Off line. The company names New Zealand honey selected from under one per cent of production and a hundred-hour process: fifty hours of fermentation with yeast and probiotics plus fifty hours of low-temperature aging.

Packaging as part of the product

A clasp and chain on the hand balm, a square jar for the lip balm and a separate phone grip. The company designs these formats to be carried on the outside of a bag rather than inside it.

Product catalogue

Hand, body and lip care in four formulations. Stressfree is built on patented B-Circadin™, Waterdrop on thermal water and ceramides, Sun Off adds SPF and Manuka honey, Nude gives lips a natural tint. Price on request.

Export and markets

The company is expanding its overseas distribution and, in its letter of 26 August 2026, named an interest in South America directly. Its current export markets are being clarified. Teranova works across Latin America and North America and matches the brand to countries and channels where the keyring format reads immediately, without a long explanation.

Declared marks

Vegan

EWG Green

Dermatologist Tested

The marks are taken from the company's own materials: a vegan formulation, an EWG Green grade and dermatological testing. Declared by the company; copies of supporting documents are provided at the deal stage.

Product formats

Hand balms, 45 ml

Lip balms in a square jar

Body balms, 200 ml

Body washes, 200 ml

Tinted lip balm

SPF products for hands and lips

A phone grip as an accessory to the balm

Gift sets and seasonal displays

Terms of cooperation

Forms of cooperation

Wholesale supply of finished products under the SLOW LOUNGE brand. The company is open to working with importers, distributors, retail and professional sales channels.

Geography

The company's priority is entering new overseas markets, with an interest in South America named specifically. The publication authorization is non-exclusive: Teranova is not its agent or distributor.

Prices

Price on request. We do not publish the company's export price list: supply prices in the open destroy a brand's retail pricing in other countries. Current terms reach the buyer at the deal stage through Teranova, shown separately from the cost of our own services.

Minimum order

The minimum batch is being clarified with the company for a specific item list.

How the work runs

Enquiry → Teranova checks and agrees the scope → negotiation and samples → logistics, customs and payment handled end to end.

Prices and terms are indicative and are finalised at the deal stage through Teranova. Direct supplier contacts are not published: Teranova Group runs the negotiation, the checks and the delivery.

Interested in this supplier?

Get in touch — Teranova arranges the negotiation, the checks and the whole deal from first contact to delivery.
