Ouznary's optimal 3:7 ratio,

Why a 3:7 Oil-to-Water Ratio?

CHECK POINT 1.
Ideal oil–water balance for healthy skin = 3:7

Healthy skin maintains roughly a 3:7 oil-to-water ratio, keeping sebum production and moisture levels balanced for optimal condition

CHECK POINT 2.
Energizing penetration with 300 Da premium micro-oil

Ouznary blends 1st-grade 300 Da non-comedogenic oils to deliver actives deep into oily/acne-prone skin

CHECK POINT 3.
Dual-function formula [Oil = moisture / Water = hydration & soothing]

Oil layer strengthens the barrier and locks in moisture; water layer delivers hydration, soothing, brightening, and antioxidants simultaneously
