Helio PDRN

High-purity PDRN (Sodium DNA) cosmetic raw material

Weiyi Biotech (为邑生物) — a Chinese manufacturer of high-purity Helio PDRN (Sodium DNA) for skin-booster, mesotherapy and cosmetic R&D, with in-house molecular-weight control and per-batch documentation.

Supplier profile

About the company

Weiyi Biotech (为邑生物) manufactures natural-source PDRN raw materials for cosmetic formulation and procurement. Its salmon-derived product is made from male salmon testes through extraction, separation, purification and drying, and uses the INCI name SODIUM DNA. Product specifications, applicable batch certificates of analysis and evaluation samples support ingredient qualification.

The company has built two technology platforms — PDRN raw-material preparation and nucleic-acid delivery — and works with both salmon-derived and recombinant sources. Its manufacturing site in Luoyang has a stated annual capacity of high-purity PDRN raw material, with plans to expand it further by 2027.

The company states that its commercial supply is directed to overseas markets, with a large share serving the South Korean cosmetics supply chain and stable deliveries to Korea, Europe and the Americas. Teranova presents Weiyi Biotech (为邑生物) for B2B partners; prices and commercial terms are shared on request, not published.

- **Official name: ZhengZhou VEO Biotech Co., Limited; manufacturer: Luoyang VEO Biotech Co., Ltd.**
- **High-purity PDRN (Sodium DNA) raw material for cosmetics**
- **Purity ≥99% (HPLC); customizable molecular weight 50–800 kDa, per the company**
- **Brand-stated compliance: ISO 9001 and ISO 22716 GMP; cosmetic standards of South Korea, the USA and the EU (INCI: Sodium DNA)**
- **No exclusive distributor — open to regional distributors through Teranova**

Active groups

Helio PDRN — Sodium DNA

The company's core material: a water-soluble Sodium DNA powder derived from traceable North Pacific wild salmon milt, supplied at ≥99% purity with a molecular weight the company says is customizable within 50–800 kDa and reported per batch.

Nucleic-acid delivery

A second platform the company describes for delivery of active nucleic acids — nanomicrospheres, liposome encapsulation and penetration-enhancing systems.

Weiyi Biotech

How the raw material is handled here

Purity and molecular-weight control

The company states purity of ≥99% by HPLC and molecular weight customizable within 50–800 kDa, with batch-specific results reported separately and a per-batch certificate of analysis.

Reported functions of PDRN

The company reports that PDRN supports skin regeneration, collagen and elastic-fibre renewal, anti-inflammatory repair, recovery of damaged skin and reduction of UV-related damage. These are the company's own statements, presented as reported and not independently verified by Teranova.

Sourcing and documentation

Sodium DNA from traceable North Pacific wild salmon milt, described by the company as BSE/TSE-free and antibiotic-free, with a Technical Data Sheet, Safety Data Sheet and a specification summary available for partners.

Weiyi Biotech

Product catalogue

Standardised botanical actives, vitamin E and phytosterols, essential and cold-pressed oils. Every item ships with a stated level of the active compound and a full documentation pack.

HPS

Helio PDRN — Sodium DNA powder, cosmetic grade (≥99%)

CMW

Customizable molecular weight, 50–800 kDa

SAB

Sample and bulk grades: 10 g · 100 g · 1 kg

PDRN

PDRN raw-material preparation and molecular-weight control

NAD

Nucleic-acid delivery — nanomicrospheres, liposome encapsulation, penetration systems

DSP

Dual sourcing pathways: salmon-derived and recombinant

Export and certification

The company states that its supply is directed to overseas markets, with a large share serving the South Korean cosmetics supply chain and stable deliveries to Korea, Europe and the Americas. Cooperation is offered on FOB Hong Kong, CIF and DDP terms; there is no exclusive distributor, and the company is open to regional distributors through Teranova. Prices and payment terms are not published and are shared with partners on request.

Supply formats

- Water-soluble powder
- Sample and bulk grades (10 g · 100 g · 1 kg)
- Customizable molecular weight (50–800 kDa)

Weiyi Biotech

Terms of cooperation

Cooperation

Wholesale supply of Helio PDRN (Sodium DNA) raw material through Teranova; sample and bulk grades available.

Specification and documents

A specification summary, Technical Data Sheet and Safety Data Sheet are shared with partners; a certificate of analysis is provided per batch. The full certificate of analysis is not published.

Certification

Brand-stated ISO 9001 and ISO 22716 GMP, and compliance with cosmetic standards in South Korea, the USA and the EU. Presented as stated by the company, not independently verified by Teranova.

Materials and rights

Company name, logo and material information are used under the written authorization of Weiyi Biotech (为邑生物) of 22 September 2026, for the company and product profile on the Teranova platform.

Price

On request; no public price list.

Prices and terms are indicative and confirmed at the deal stage through Teranova. The manufacturer's direct contacts are not published.

Need this active in your formula?

Write to us — Teranova will request prices and minimum quantities, arrange samples and run the deal from first contact to delivery.
