Company profile

AGAFAR

Dermatology-clinic skincare from Korea

Three Korean skincare brands and professional aesthetic devices, brought together by AGAFAR Medical Beauty Group.

From clinical practice to daily care

AGAFAR brings together dermatology clinics, skincare and professional aesthetic equipment. The group's clinic history dates to 2010. Its Korean clinic website lists six locations: Mia, Seongnam, Gwangmyeong, Gimpo, Gyeyang and Juan.

According to the company, AGAFAR Clinic and AGAFAR Medi Lounge have more than 40 branches across Korea and overseas, including Hong Kong, China, Thailand and Canada. Its skincare portfolio has three brands: AGAFAR, agapharma and a'reiv.

AGAFAR's materials identify two separate awards in dermatology and derma-cosmetics: first place in the 2023 KPBA awards and the 2026 KBEI award. The KBEI certificate is dated 3 April 2026 and names The JoongAng alongside the organizer.

Three skincare brands

A clinic history dating to 2010

20 products in the DERMA MODE PROGRAM catalog

Three brands. Distinct roles.

AGAFAR

Gentle daily skincare for sensitive and problem-prone skin, from cleansing to sun protection. The line includes toner, ampoules, eye care and creams, with formulas built around peptides, PDRN, ceramides and botanical extracts.

agapharma

The professional Meditive Formula 3X line combines Hyal-Collagen, Bio Lacto Exosome and Super Centella. Its catalog covers a foam cleanser, ampoule, skin booster and two creams.

a'reiv

Two complementary formats: a Hyaluronic Ultra-Fine sheet mask and Calming Sun Cream SPF50+ PA++++.

The skincare collection

Mild Cleansing Gel

300 ml

Cleansing gel with portulaca extract, madecassoside and ceramide NP.

Balancing Soothing Toner

300 ml

Toner with betaine, chia seed extract and Centella asiatica extract.

Eliderm Gel

300 ml

Gel with green tea, propolis, licorice root extract and allantoin.
