1 kind of peptide/ 3 kind of collagen/ PDHs included
Tanning & Anti-wrinkle cream

ABOUT THE COMPANY

JETSGLOBAL is a Korean company, the owner and developer of the aesthetic-care brand TOM-TIT-TOT. It is responsible for product planning, formula development, branding and packaging design, and organizes manufacturing through a network of partner factories (OEM/ODM). The company does not own its own factory and operates as a brand owner, developer and trading-and-distribution operator.

The brand portfolio spans three directions: a professional aesthetic line for clinics and spas, a plant-placenta line, and daily home care with a high concentration of active ingredients. The company has its own registered scientific laboratory, two patents (including Korean patent No. 10-1707491), venture-company status, and trademark registrations in the markets of China, Vietnam, Malaysia, Indonesia and Thailand.

Besides its own brand, JETSGLOBAL distributes third-party aesthetic brands and supplies more than 10 countries through marketplaces (Amazon, Shopee, Lazada), with the B2B channel predominating. According to the company, EU CPNP registration references (via a Responsible Person in the EU) and US MoCRA references (via a U.S. Agent) have been filed; this confirms that registration requirements have been met but does not constitute product approval by regulators. For Latin American markets, materials are published through Teranova.

Owner and developer of the TOM-TIT-TOT brand

Own scientific laboratory, two patents, venture-company status

OEM/ODM through a network of partner factories (no own factory)

EU CPNP and US MoCRA registration references, per the company

Exports to 10+ countries, sales via marketplaces, predominantly B2B

Product lines

Aesthetic Premium

A professional aesthetic line for expert use only in clinics and spas: functional actives in high concentration and carefully balanced proportions. Peeling solutions, ampoules, and kits with a derma roller.

Placenta Line

A line with plant placenta from soy and rye obtained by cell-culture methods, combined with PDRN and vitamin complexes: essences, intensive creams and cream masks for nourishing care.

Daily Skincare

Daily home care with a high concentration of active ingredients, gentle and easy to use even for sensitive skin: serums, creams, cleansing, sun and body care.

CAPABILITIES AND MANUFACTURING

Capabilities and manufacturing

Product planning and development

Product planning, formula development, branding and packaging design. Own registered scientific laboratory, two patents and venture-company status.

OEM/ODM through partner factories

Manufacturing under the client's brand is organized through a network of partner factories. JETSGLOBAL acts as an OEM/ODM coordinator rather than a direct manufacturer; ISO/GMP are provided per the actual manufacturing partners.

EU CPNP / US MoCRA registration references

According to the company, EU CPNP registrations (via a Responsible Person in the EU) and US MoCRA (via a U.S. Agent in the US) have been filed. This is fulfillment of registration requirements, not product approval by regulators.

Professional Ampoule Line

N20 Pigment Ampoule

An ampoule with Niacinamide, Arbutin, tranexamic acid, truffle extract and Centella for an even tone and radiant skin.

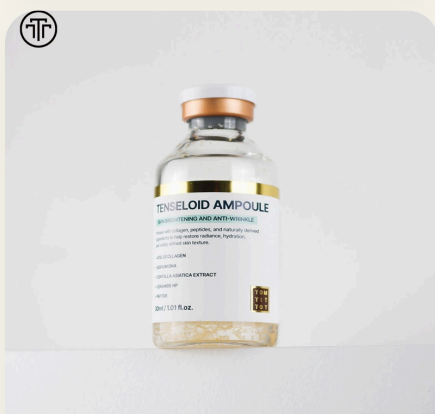

Niacinamide 20% Bright Shot Ampoule • 5 ml x 5

A concentrate with 20% Niacinamide, truffle extract and Centella for a more even tone, in a 5 ml x 5 format.

Ectoin Calming Ampoule

A soothing ampoule with Ectoin, panthenol, hyaluronic acid, ceramides and Centella for hydration and skin comfort.

Tenseloid Ampoule

An ampoule with a peptide complex, collagen and Centella for firmness and a visibly smoother look.

Tensioeal Solution Kit

A skin-toning care set of an ampoule plus a cream, complete with an MTS roller.

Plant Placenta & Vita Care

C5 Placenta Essence

An essence with plant-based (soy phyto-placenta), Centella and peptides for hydration and radiance.

Placenta-Vita12 Intensive Cream Mask

A sheet mask with plant-based phyto-placenta and a vitamin complex for intensive skin nourishment.

Concentrated Serums

Brightening X5 Serum

A serum with Niacinamide, tranexamic acid, glutathione and pearl extract for radiance and an even tone.

Whitening X5 Serum

A cosmetically brightening serum from the X5 line for a more even skin tone.

Stem Cell R5 Serum

A serum with plant callus ferments, peptides and hyaluronic acid for hydration and firmness.

Retinol 3X Serum

A night serum with Retinol and bakuchiol, Centella and ceramide for cosmetically smoother skin.

Retinol 3X Expert Duo Set

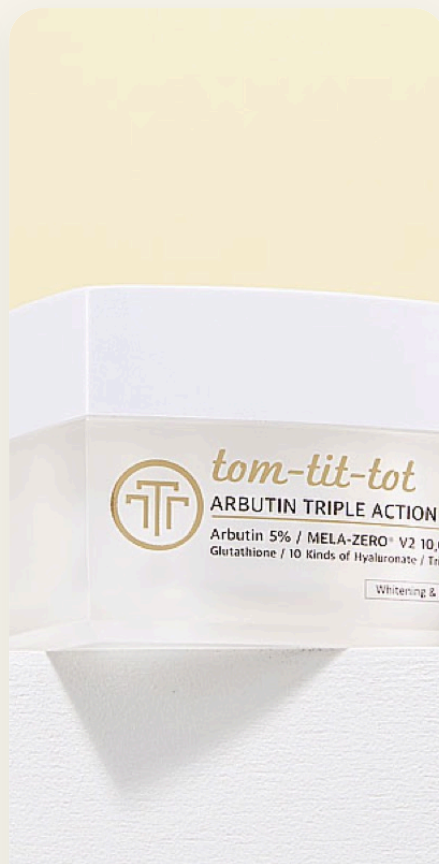

A set of a serum and a cream with Retinol and bakuchiol for evening care.

Creams & Everyday Care

Tenseloid Cream

A cream with collagen and peptides for firmness and visibly smoother skin.

Arbutin Triple Action Cream • 50 ml

A cream with Arbutin, glutathione, hyaluronic acid and collagen for an even tone, in a 50 ml size.

Mists & Body Care

Repair Ampoule Cream Mist

A mist care with plant oils, panthenol and marine extracts for hydration and renewed skin comfort.

O2 Repair Ampoule Mist

A replenishing ampoule-mist for hydration (marked as out of stock on the brand's site, photo available).

In Shower Tone-Up Body Cream

A body cream applied in the shower that evens the skin tone (cosmetically).

In Shower Shining Tone-Up Body Cream • 300 ml

A radiance-boosting body cream with Niacinamide and glutathione, in a 300 ml size.
